How Did We Get Here?

-  44% of teachers report always/very often feeling burned out at work
-  25% turn-over rate for special education teachers
-  53% of public schools report feeling that they were understaffed going into 2022-2023 school year
-  \$20,000

Regarding what makes VocoVision a step above the rest, I have found that placement through their agency has allowed me to be fully a part of the school teams...I have found this to allow for smoother and more effective identification, intervention and service delivery for our students and have found teams find more comfort in knowing who to reach out to when they have questions.

Rachel LH, Remote School Psychologist
